

Columbia University HIV Behavioral Health
Training present:

Behavioral Health Along the HIV Care Continuum

Thursday, June 20, 2024 @ 1-2 PM EST

SPEAKER

Robert Remien, PhD

Clinical Director for Behavioral Health
NECA AETC Director, HIV Center for Clinical
and Behavioral Studies
Professor of Clinical Medical Psychology,
NY State Psychiatric Institute and Columbia
University

This presentation will cover the connection between mental health and HIV from prevention through treatment. The link between depression and ART adherence will be highlighted. Mental health screening tools and their optimal use by care team members will be described.

LEARNING OBJECTIVES

- Describe the role that mental health plays in HIV prevention and health outcomes.
- Identify comorbid mental health conditions in the HIV context.
- Integrate mental health screening and treatment into HIV prevention and primary care.
